

MIQ ENGINEERING PTE LTD

a wholly owned subsidiary of MTQ Corporation Limited

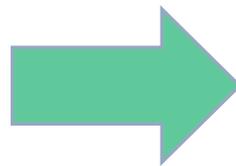

Corporate Profile

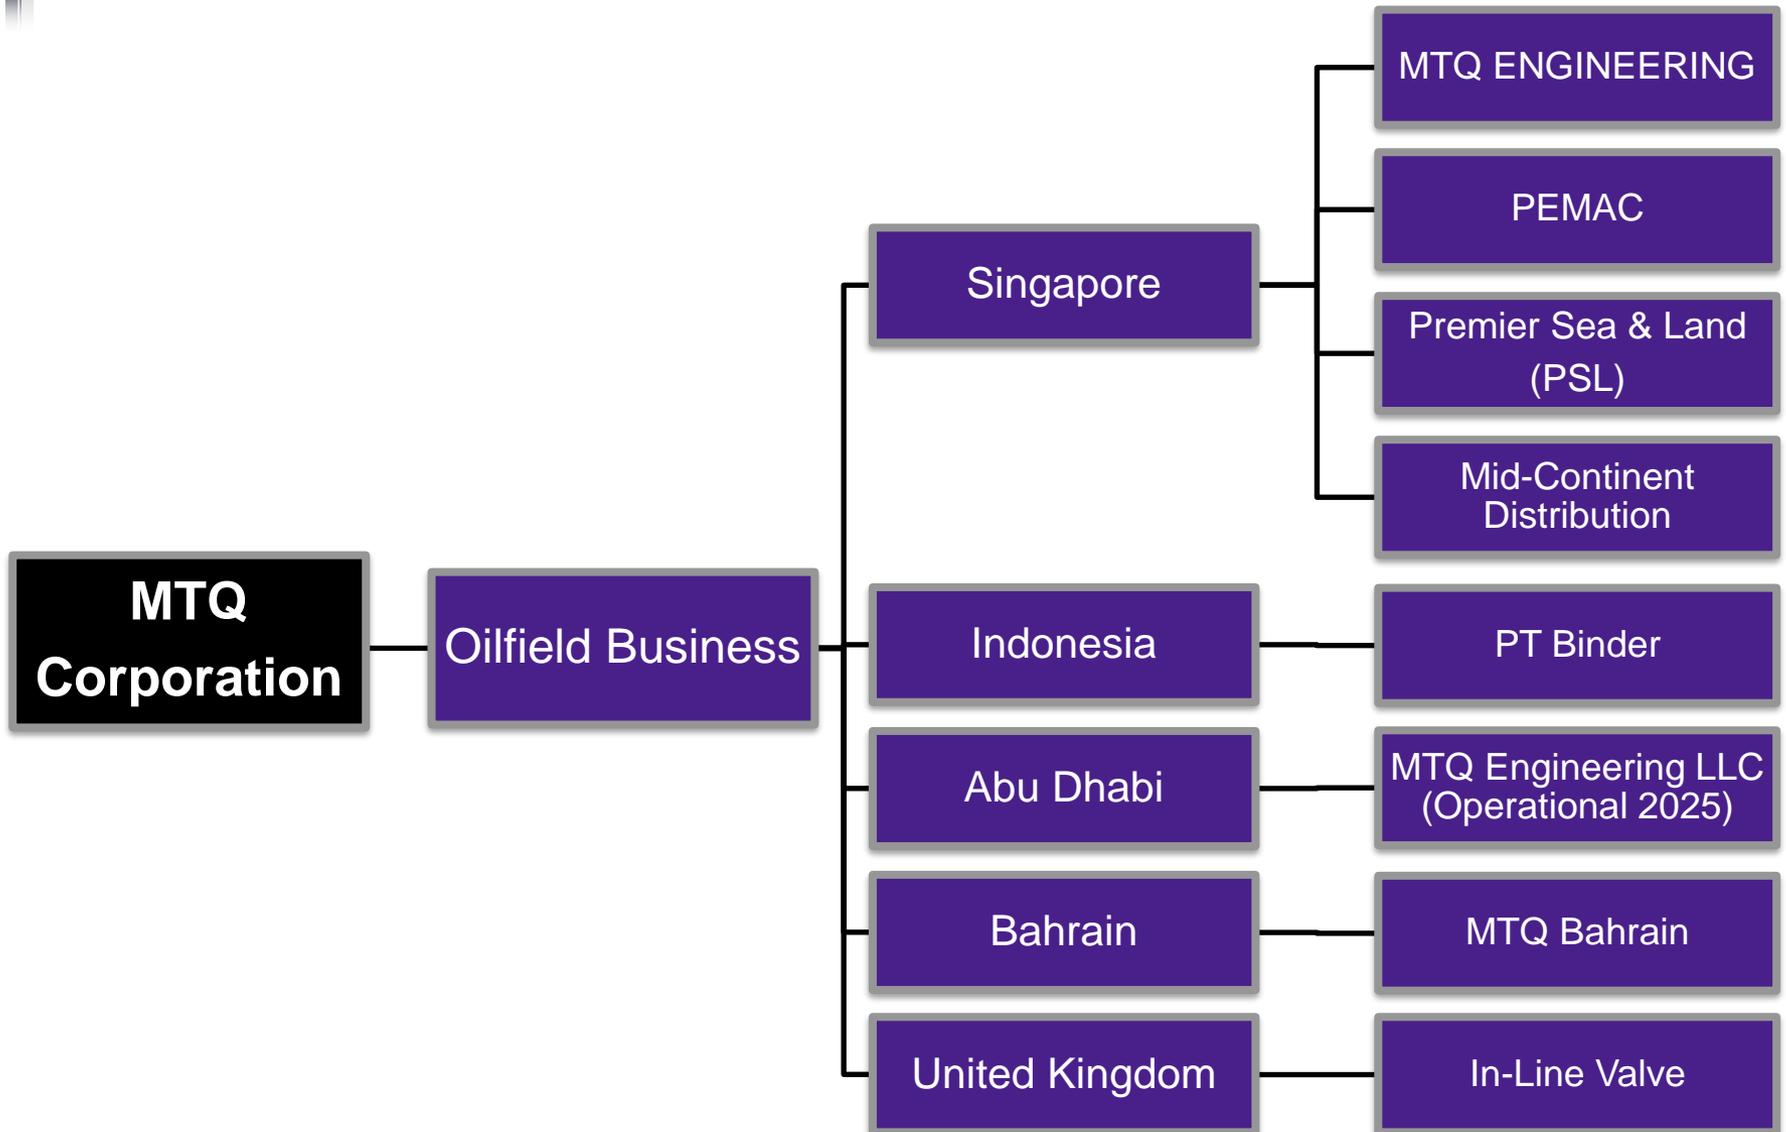

MTQ Corporation Limited began its operation in Singapore in 1969 as Metalock (Singapore) Private Limited and was renamed to MTQ Corporation Limited in April 2003.

It was listed on Singapore Stock Exchange under SESDAQ in 1988 then subsequently upgraded to SGX-Mainboard in 1999.

Today,

- Specializes in oilfield equipment repairs and reconditioning, component manufacturing, fabrication and rental operations
- Focus on high pressure drilling equipment, notably Blow-Out Preventer related components and pressure control equipment.
- Preferred Engineering Services provider to OEMs: Cameron, Baker Hughes, OneSubsea, Aker Solution, NOV, Schlumberger, TechnipFMC, etc.
- Other major customers include international and regional drilling contractors, major and regional oil companies, oil service companies, etc.
- Exclusive Partner with Schlumberger/Cameron Drilling in APAC market for Pressure Control Equipment.

**Over 50 years of
reputable standing and
track record**

**Renowned for superior
quality and prompt
delivery**

Our Customers

MTQ services OEMs, service companies, and oil & gas operators

MTQ Engineering – Tuas Facility

Total land space : 44,000 m²
Sheltered Workshop Area : 31,000 m²
Open Area : 13,000 m²

Machine shop capability:

- 2 CNC Horizontal Lathes
- 5 CNC Vertical Turning Machines
- 10 CNC Horizontal Mills
- 1 CNC Vertical Mills

Welding shop capability:

- 16 Manual Arc Welding Machines
- 8 Sub Arc Auto Welding Machines
- 3 Cladding machines
- 4 Mig Welding Machines
- 1 Tig Welding Machines
- 3 Furnaces
- 4 PWHT machines
- 1 Plasma Cutting Machines
- 4 Auto Gas Cutting Machines
- 1 MPI Inspection Booths

Others:

- 3 Test Bays
- 1 Painting Booth
- 1 Blasting Chamber
- 9 Overhead Cranes (20-70 tons)

MTQ Engineering Achievements & Awards

Quality

- Certified to ISO 9001 standards since Dec 1998
- API Q1 Certification (including API 16AR Registration Scope) since Sept 2013
- API 6A Monogram License since April 1998
- API 16A Monogram License since July 2002
- API 16C Monogram License since July 2023

Health & Safety

- Certified to ISO 45001:2018 since April 2021
- bizSAFE Level Star Certification since April 2018

MTQ and Schlumberger-Cameron Partnership

- Exclusive Partner with Schlumberger/Cameron Drilling in APAC market for Pressure Control Equipment.
- List of Pressure Control Equipment inclusive of:
 - API 16F – Riser Joints, Telescopic Joints, Riser Running Test Tools.
 - Connectors – API 16A (HC, HC/H4, EVO)
 - Diverter and Diverter Running Test Tools.
 - Surface BOP Controls and Monitoring Systems.
 - BOP Ram and Ram Packers
 - Ram Type BOPs
 - Annular BOPs

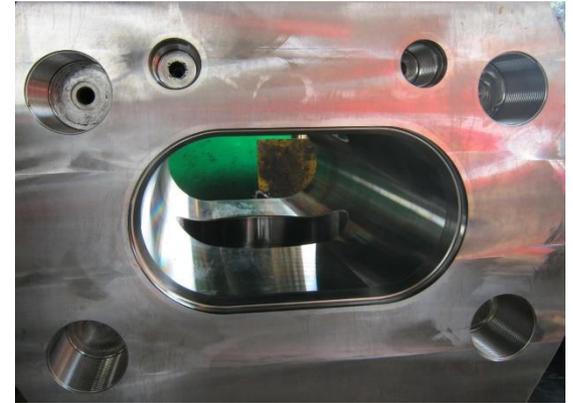

BOP repair in collaboration with Schlumberger

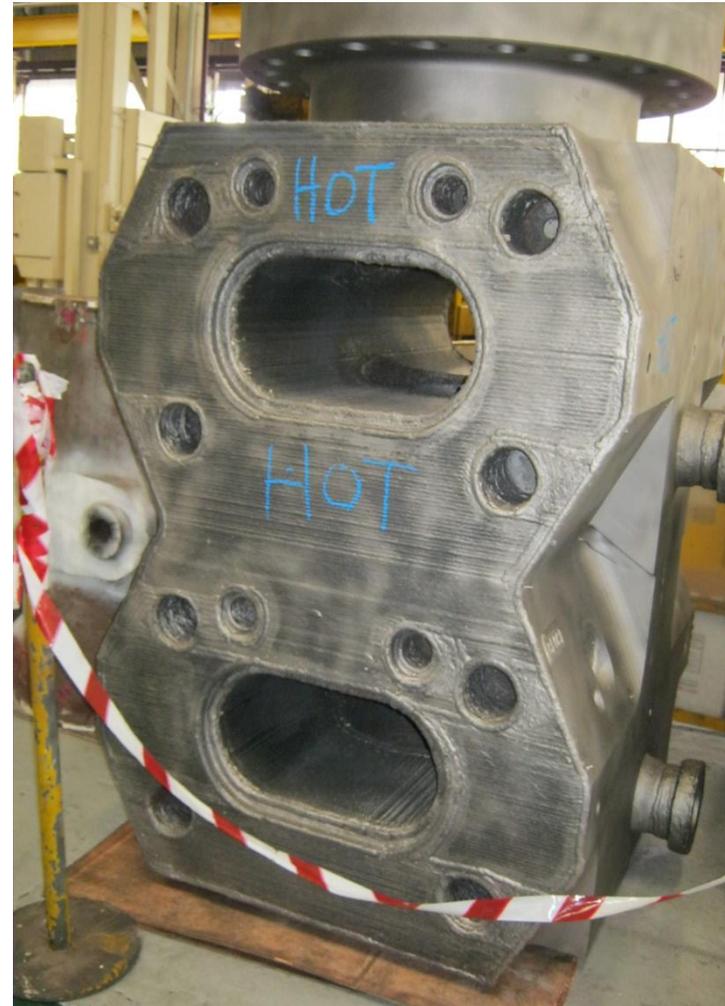

Dismantling and blasting for inspection

BOP repair in collaboration with Schlumberger

Pre and Final machining

BOP repair in collaboration with Schlumberger

Welding / Cladding and Furnace PWHT

BOP repair in collaboration with Schlumberger

Inspection (NDE and dimension)

BOP repair in collaboration with Schlumberger

Assembly, Testing (Hydrostatic and Shear) and Drift

BOP repair in collaboration with Schlumberger

In-house blasting and painting

BOP repair in collaboration with Schlumberger

Subsea BOP stack up and barge transportation

BOP repair in collaboration with Schlumberger

Testing and Painting of Cameron Dual Annular BOP

Manufacturing/Repair of MPD for OEM

Managed Pressure Drilling (MPD) equipment

Manufacturing/Repair of MPD for OEM

Managed Pressure Drilling (MPD) equipment

Repair and servicing of Telescopic Joint

Telescopic Joint

Manifolds Maintenance

CHOKE MANIFOLD

READY FOR SHIPMENT
